KOVALENT
CERAMIC COATINGS

How to Apply RESTORE the Right Way?
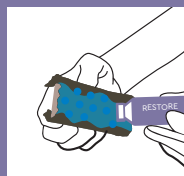

Before You Begin

1) Clean   2) Degrease

**RESTORE** OPTIMAL INTERIOR SURFACE PROTECTION
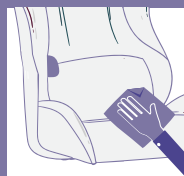

3) Application

Step 1:
Gently shake the Restore bottle.

Step 2:
Open the lid and apply a generous amount to a dry, new applicator pad.

Step 3:
Work in small areas, ensuring even application and no streak marks.

Step 4:
Allow the product to dry for 30 seconds. Use two 380 gsm microfiber cloths: one to wipe off the bulk of the coating & the other to wipe off any remaining residue. Inspect the surface to ensure there are no haze marks.

Step 5:
Apply a single layer of Restore coating and let it dry for at least 5 days.

How to Maximize Results?

- Avoid direct sunlight.
- Work small sections at a time.
- Inspect the surface to ensure there are no haze marks.
- Use minimum 380 gsm cloths to wipe off coating for the best results.
